

DECLARATION:

Technaxx Deutschland GmbH & Co. KG takes the protection of its customer data very serious. We would therefore like you to know, when we collect what data and how we plan on using it. Any data you transfer to us is handled responsibly and according to the law, more specifically according to the German Bundesdatenschutzgesetzes (BDSG) and Telemediengesetzes (TMG) of data handling and storage.

1. Data collection and processing

Personal data will only be transferred to the extent you personally authorized. Furthermore, we only collect the data we need in order to uphold the service our company provides for you.

We collect and process the data provided by you in our system for the time the contract is effective, in other words for as long the Technaxx Security Advanced App is used. Unless you explicitly allow further processing, your data will be made inaccessible once the contract is fulfilled and deleted after the tax- and trade respites for data storage have expired.

App Usage

In Detail the following Data collected when using the App

- IP address of the user
- Log-In data of you mobile device (including the ID of device)
- Data which is generated by using our App, Technaxx Security Advanced, throughout the use of IP camera and/or receiver, like Date and Time of the call up, amount of data which is produced by the IP camera and or the receiver and also notifications which will be transmitted successfully to your mobile device.

To use this app, you must be registered either at iTunes Store or the Google Play Store. Therefore you must have submitted your personal data such as name, e- mail address, etc. Parts of the provided data will be given to us by the online store operators. The collected data will be saved and is necessary for the performance of the contract.

Push notifications

If you want to get displayed our push notifications on your mobile device, even if the App is not opened on your phone, you have to give us permission. When you first start the app we will ask for your permission. The app will use this so-called push notifications only if you have explicit agreed. You can disable push notifications at anytime in the device settings.

Access to camera

We need to access the camera of your device. The requested data is not collected or stored by us. Access is only enabled to read a QR code.

Access to microphone

We need access to the microphone of your device. The requested data is not collected or stored by us. Access is only enabled to speak via the IP camera or the receiver.

Access to wireless information

We need to access the wireless information of your device. The requested data is not collected or stored by us. Access is made to determine if wireless is enabled and which wireless devices are connected to the app.

2. Responsible office and contact

Responsible agency for the collection, processing and use of personal information within the meaning of the Federal Data Protection Act is Technaxx Germany GmbH & Co. KG represented by the Technaxx administrative and Beteiligungsgesellschaft mbH represented by the managing Deniz Isik and Pascal Pekcan, Kruppstraße 105 , 60388 Frankfurt am Main.
